Academic Projects

Persian Fake News Detection

In this project, I use Persian stance detection in order to detect fake news. In addition, this is my Master's dissertation.

Oct 2020 – Present

Persian Stance Detection [\[get data\]](#)

The final project of the deep learning and natural language processing courses. My "Persian stance classification data set" paper is the result of this project.

Aug 2019 – Jun 2020

Educational Data Mining [\[get data\]](#)

The final project of the data mining course. In this project, I examined students' information and obtaining reasons for academic growth, academic failure, and dropout.

Jan 2020 – Jun 2020

Movie Sentiment Analysis

The final project of the machine learning course.

Jan 2020 – Jun 2020

Improving the Prediction of the Minority Class

One of the pattern recognition course projects. Performing different methods of classifying imbalanced data in order to have realistic accuracy.

Jul 2019 – Sep 2019

Online Education Website

The final project of the Bachelor's degree.

2011
